

# Cleveland Boardmans Project

## II Learning VUE.JS

<h1> {{ pageTitle }} </h1>  
~~script~~

Vue create App {

data() {

return {

pageTitle: "Hello world" };

}

"Vue Directives" look like "v-\*" as an  
HTML tag.

<ul>

<li v-for="link in links">

<a> {{ linkText }} </a>

</li>

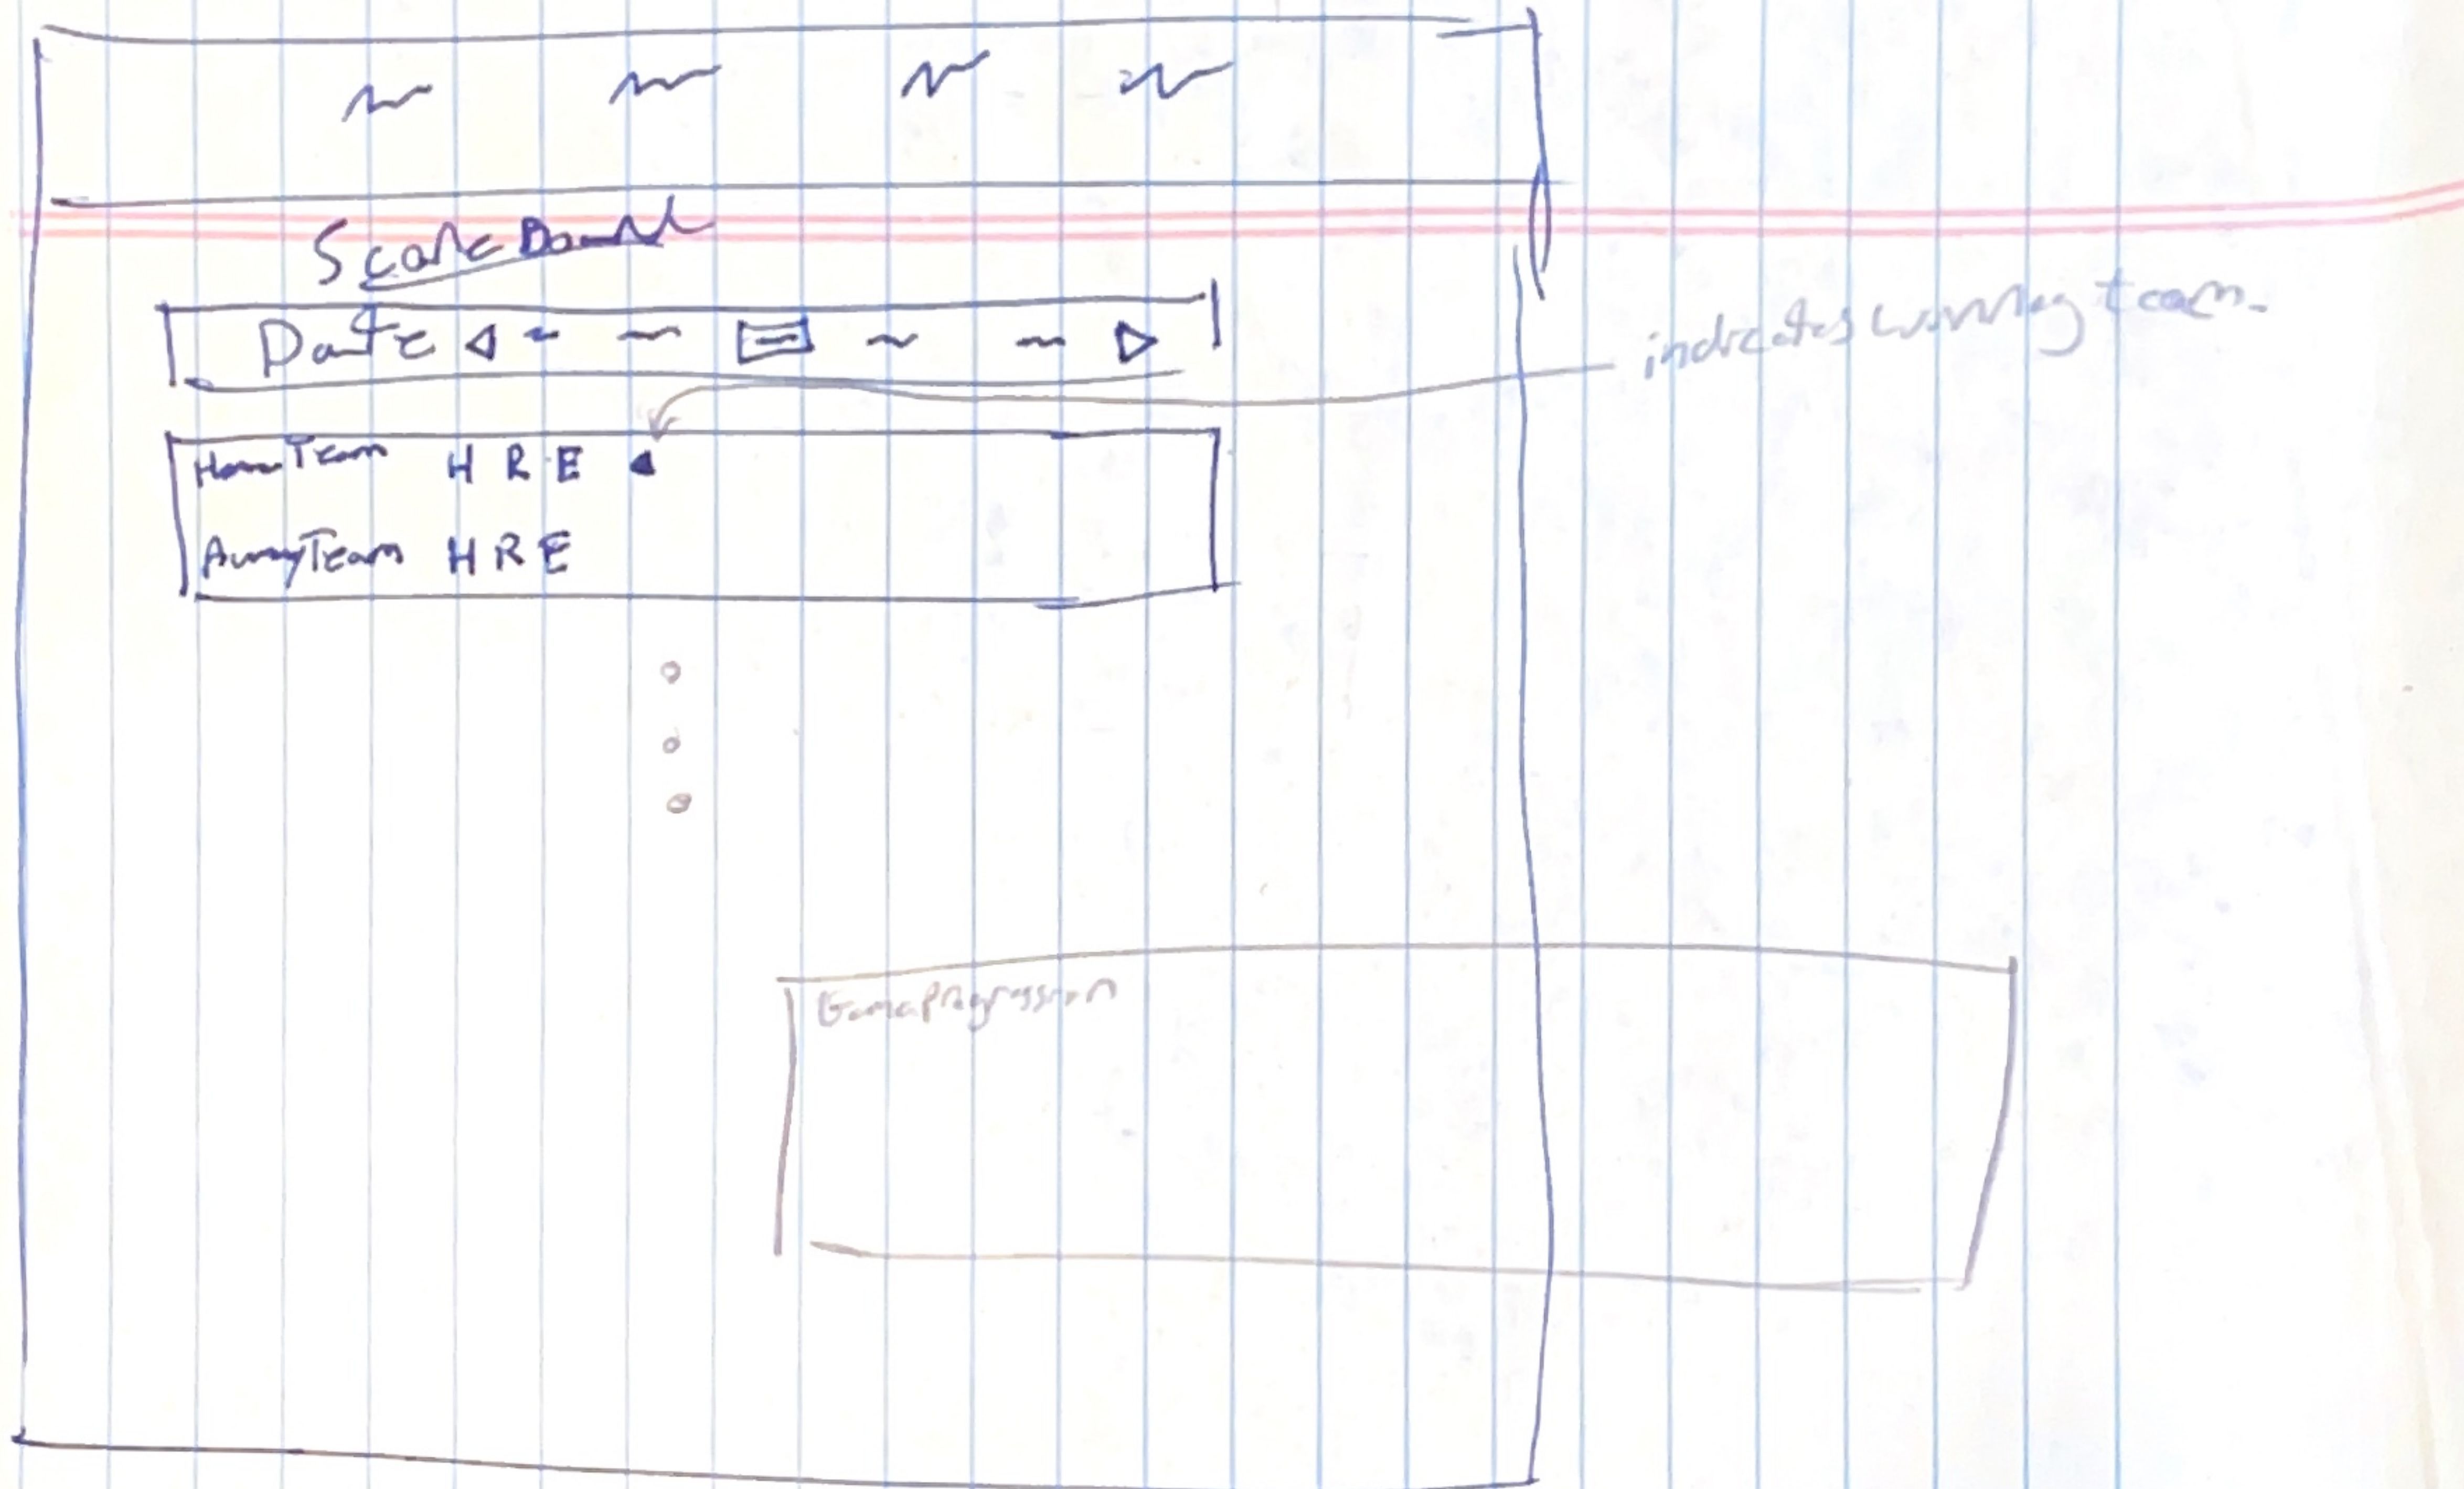

</ul>

inside of curly braces is JS expression  
to affect HTML tags, use v-bind: tag = "js".  
:tag 3 start kind

Vue Directives
